

JOB DESCRIPTION AND PERSON SPECIFICATION

Job Title: Junior User Experience (UX) Designer

Accountable to: User Experience (UX) Designer

Contract Length: Permanent

Hours per week/FTE: 35 **Weeks per year:** 52 **Salary:** £29,851 - £36,377 per annum

Grade: 3

College/Service: Digital & Technology Group

Location: High Holborn

Purpose of role

As Junior User Experience (UX) Designer, you will support the UX Designer to deliver the best possible experience for the users of UAL's digital channels, making them as straightforward to use as possible.

As part of the Digital & Technology Group, you will be working within a UX team (Designer and researchers) and alongside developers and content editors in the Digital Team to deliver an excellent user experience across UAL's core digital channels. Channels managed by the Digital Team include the UAL website, Portfolio, Graduate Showcase, and the staff digital workspace. You will also be working closely with the Brand Team to ensure that UX improvements continue to build on our existing pattern library and are reflective of our brand values.

You'll have proven creative talent and abilities in user experience, interaction design and user-centred design principles to create consistent insight driven experiences that engage our users.

Duties and responsibilities

1. Assist the UX Designer to provide support for the UX direction for UAL's core digital channels based on analytics and user behaviours.
2. Production of wireframes and user interfaces to be developed across the University's digital channels.
3. Assist in the ongoing development of the UAL pattern library (working with the UX Designer, and the Design Lead in the Brand Team).
4. Working with colleagues in the UX team to conduct user research with groups of users (predominantly prospective students, current students, and members of staff) through focus groups, 1-2-1 user testing sessions and guerrilla user testing.
5. Support the provision of sufficient and detailed documentation of UX behaviours and designs to the digital development team.
6. Assist the UX Designer to provide support in defining the information architecture and user experience of the University web environment. Producing UX solutions for identified problems on our digital channels, including third party web-based systems.
7. Assist in providing online experiences which are interactive and useful to our audiences. Reviewing and amending existing digital channel UX patterns when needed.
8. Create experience documents including: site maps, user journey maps, logic flows, wireframes and prototypes.
9. Maintain keen interest in global UX developments and contribute ideas for ongoing user experience development of the University's digital environment.
10. Assume other reasonable duties, as necessary, as determined by the Assistant Head of Online Services.
11. Undertake health and safety duties and responsibilities appropriate to the post.

HERA Role Code: 001746
